

## Summer News from SportKAT

Now that summer is in full swing, we hope you are having a delightful time.

Here at SportKAT™, we have accomplished many important milestones during the spring that you need to be aware.

**Korebalance™ moves into full production.** That's right, the latest innovation from SportKAT is now available! This product has received accolades from everyone that has purchased this latest product. Don't miss out.

**SportKAT™ consolidates all manufacturing and corporate activities into a new facility in Vista, CA.** In an attempt to meet the growing demand for both the Korebalance and the SportKAT products, the company has moved into a new 4,500 sq ft facility in north San Diego County. This new facility enables the company to focus on improving manufacturing and quality control, under the guidance of our new CEO, Damon Lawson. In June, this new facility passed a complete FDA Good Manufacturing Practice inspection!

Products being manufactured include:

- **Korebalance** – patented balance assessment and training device including 3D graphics and advanced touchscreen user interface.
- **SportKAT 4000** – patented balance assessment and training device including data collection and personal computer
- **SportKAT 1700** - patented balance assessment and training device including data collection
- **SportKAT 650** - portable patented balance assessment and training device including data collection
- **SportKAT 550** – portable patented balance training platform

Don't be left out, order your Korebalance or SportKAT product today. If you require additional information or a quote, please let us know.

Thank for your time and we look forward to hearing from you soon.
